

Brownfields 2018 Cleanup Grant Fact Sheet ***Turtle Mountain Band of Chippewa Indians, ND***

EPA Brownfields Program

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. The Small Business Liability Relief and Brownfields Revitalization Act of 2002, as amended by the Brownfields Utilization, Investment, and Local Development Act of 2018, was passed to help states and communities around the country clean up and revitalize brownfields sites. Under this law, EPA provides financial assistance to eligible applicants through four competitive grant programs: assessment grants, revolving loan fund grants, cleanup grants, and job training grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

Cleanup Grant

\$200,000 for hazardous substances

EPA has selected the Turtle Mountain Band of Chippewa Indians for a brownfields cleanup grant. Hazardous substances grant funds will be used to clean up the L'Bel Cour (Old Housing/Barnesville) site located at 9818 BIA Road #7 Street 1 in Belcourt. The five-acre site was developed as housing in 1965-66, and is contaminated with metals and inorganic contaminants. Grant funds also will be used to support community involvement activities.
