

Brownfields 2018 Job Training Grant Fact Sheet **Civic Works, Inc., MD**

EPA Brownfields Program

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. The Small Business Liability Relief and Brownfields Revitalization Act of 2002, as amended by the Brownfields Utilization, Investment and Local Development Act of 2018, was passed to help states and communities around the country cleanup and revitalize brownfields sites. Under this law, EPA provides financial assistance to eligible applicants through four competitive grant programs: assessment grants, revolving loan fund grants, cleanup grants, and job training grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

Environmental Workforce Development and Job Training grant funds are provided to nonprofit organizations and other eligible entities to recruit, train, and place residents from solid and hazardous waste-impacted communities, including low-income and minority, unemployed, and underemployed individuals. To date, EPA has funded 288 job training grants totaling over \$60 million through the Environmental Workforce Development and Job Training program. As of May 2018, more than 17,100 individuals have completed training, and of those, almost 12,500 have obtained employment in the environmental field, an average starting wage of over \$14 an hour. This equates to a cumulative placement rate of approximately 73% since the program was created in 1998.

Job Training Grant

\$200,000

EPA has selected Civic Works, Inc. for an Environmental Workforce Development and Job Training grant. Civic Works plans to train 72 students and place at least 61 graduates in environmental jobs. The core training program includes 146 hours of instruction in 40-hour HAZWOPER, EPA AHERA supervisor, Maryland lead abatement worker, first aid/adult CPR, OSHA confined space entry, OSHA blood borne pathogens, fall protection, introduction to ecology and brownfields, stormwater management, and environmental site assessment. Participants who complete the training will earn one state certification and five federal certifications. Civic Works is targeting unemployed and underemployed residents with history of incarceration, disability or history substance abuse Baltimore, Maryland. Key partners include Lifeline Environmental, A&I Environmental Services, ACV Environmental, Urban Green Environmental, Baltimore Office of Sustainability, the Mayor's Office of Employment Development, Maryland Center for Veterans Employment and Training, the Baltimore City Office of Child Support Services, and the Baltimore Community Mediation Center.
